Hannah More School Goes Green with Technology Recycling Fundraiser

REISTERSTOWN, Md.—Hannah More School is accepting donations of empty printer cartridges, no longer needed cell phones and small electronics (e.g. GPS systems, iPods, MP3 players, etc.) for a recycling fundraiser. The recycling program, offered by FundingFactory, provides much needed classroom, recreational or technology equipment to schools and nonprofit organizations, in exchange for recyclable electronics. To date, Hannah More School has raised close to \$2,000 through the FundingFactory program and has been able to purchase printers for all of the school's classrooms.

Community members interested in supporting the school's fundraiser with donations can drop off printer cartridges, cell phones and small electronics at Hannah More School's main campus which is located at 12039 Reisterstown Road in Reisterstown, Md. during school business hours. The school is also seeking local businesses to register as "Business Supporters" for the FundingFactory Recycling Program. These businesses would donate their empty printer cartridges and other recyclable electronics and Hannah More School would receive credit for those donations.

For more information, please contact the school's Director of Development, Joan D. Drebing, at (410) 526-5000 x631 or jdrebing@hannahmore.org, or Technology Coordinator, Tiffany L. Uzarski, at (410) 526-5000 x616 or tuzarski@hannahmore.org.

Hannah More School provides individualized academic, vocational and therapeutic programs to students whose needs require a specialized school setting. The school is committed to implementing programs in a nurturing and academically challenging environment that will enable students to achieve success in school and beyond. For more information, please visit www.hannahmore.org or call the school at 410-526-5000.
